www.deceuninck.com

Deceuninck is a global leader in designing and manufacturing high-quality systems for windows & doors as well as high-design building products including interior, roofline, decking, cladding and outdoor living systems. Our core technologies include uPVC extrusion and Deceuninck's revolutionary Twinson material. In design and manufacturing of our windows & doors, Deceuninck gives priority to constant innovation in materials, products and applications. These innovations include the patented UV-resistant Solex coating system, not to mention our revolutionary Twinson material that merges the benefits of wood and uPVC into a single base material. Deceuninck products combine this groundbreaking technology with the absolute best in timeless design; incorporating an accent on natural colours. Deceuninck employs a cradle-to-cradle philosophy in its design and manufacturing, providing many years of quality service, after which our products can be fully recycled. The Deceuninck group is active in more than 75 countries across Europe, North and South America, Asia and Australasia. Our 35 production sites and sales subsidiaries are supported by some 2,800 employees worldwide. We proudly extrude our premium products in the following countries:

- Belgium • France • Germany • Poland • Russia • Turkey • United Kingdom • United States

Deceuninck is quoted on the Euronext stock exchange. Its head office and coordination center for the Group is located in Hooglede - Gits (Roeselare), Belgium.

Advantages & Qualities

Weather Resistance

Deceuninck's ongoing development of material technology gives you a long lasting quality product. A longer useful life means peace of mind and a great looking window that continues to improve the value of your biggest asset, your home. Extreme temperatures and severe weather exposure has no effect on doors and windows, continually performing perfectly in all conditions.

Maintenance Free

Deceuninck window and door systems do not require regular re-painting and expensive maintenance. They will not rot, warp nor corrode, even in tropical and salty coastal climates. Maintenance is simply a quick and easy clean and does not involve any further costs.

High Security

Highly-secure windows and door profiles made by Deceuninck offer the best solution for increased safety in your home. Our special fittings, glazing and expert installation provide enhanced security for your family.

High Sound Insulation

In our busy lives, the hustle and bustle of every day living leaves us craving a little peace and quiet when we want it. Protection from noise is an important characteristic of a modern window, ensuring a comfortable life, both at home and in the office.

Thermal Insulation & Energy Efficiency

From the hottest summers to the iciest winters, Deceuninck windows and doors help you enjoy a perfectly comfortable atmosphere in your home. Our patented design keeps you insulated from the outside temperatures, providing you the best possible thermal performance today. With this enhanced thermal performance we help you save on your energy bills saving on your cost of living in the long term.

Termite Resistance

In many climates, timber windows and doors are often destroyed by termites, whereas Deceuninck window and door systems are fully resistant to these pests, thanks to our scientifically developed compound technology.

Fire Safety

Fire tests have shown that Deceuninck materials are naturally flame retardant throughout their product life. They will not cause, support or enhance the development of accidental fire. Unlike timber windows, the Deceuninck profiles do not support combustion and are in fact self-extinguishing.

Maximum Water Tightness

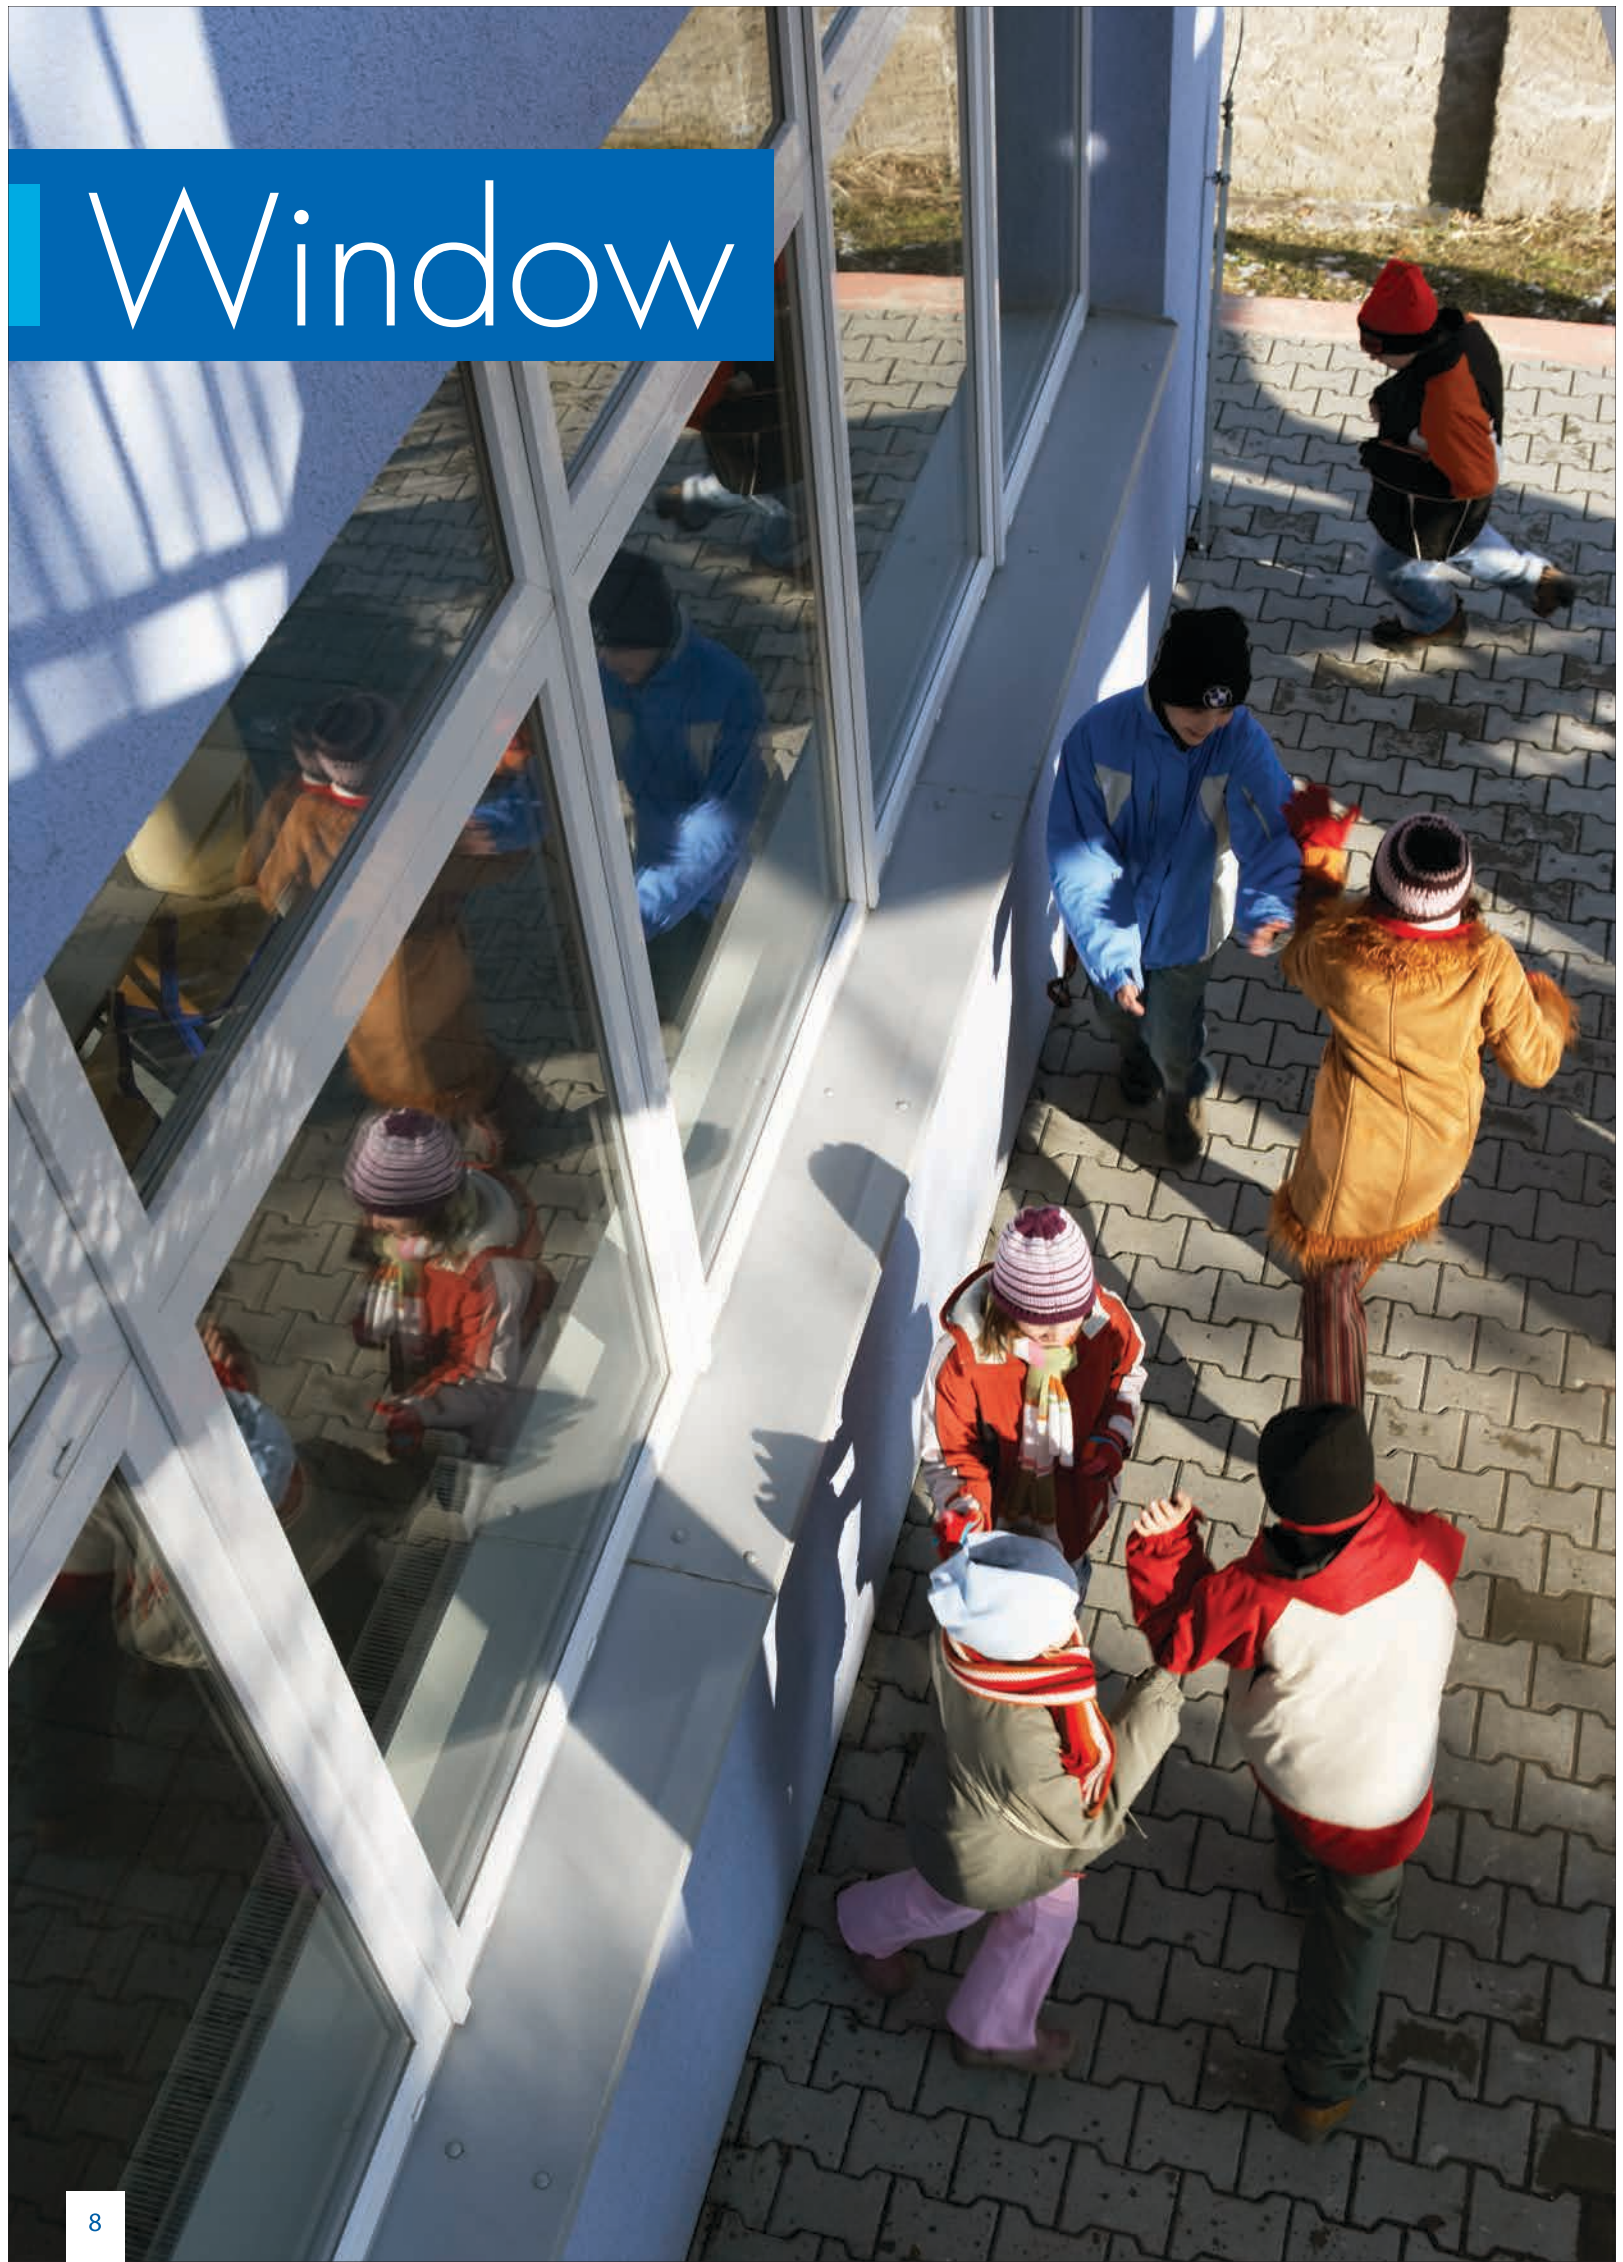

Deceuninck window and door systems have been successfully used in swimming pool facilities, marine and ocean environments without any detriment to its surface-finish or performance. Weather-tightness and its resistance to driving rain is one of the main assets of Deceuninck windows and doors.

Material & Structural Performance

You are only as good as your track record. The longevity and superior quality of this material has been conclusively proved for over 40 years. Deceuninck's material compound performs and exceeds worldwide standards for strength, durability, heat-stability, colour-retention, and termite-resistance.

Maximum Wind Resistance

Due to our high-quality material properties and gasket technology, Deceuninck windows and doors are ideal for installation in seaside locations and areas with extreme wind exposure. Salty air, strong wind and extreme weathering has no effect on performance.

Four Seasons Deceuninck Tilt & Turn, Casement & Awning windows are a modern engineering marvel. Proof that even the most technical aspects of design can yield beautiful results.

User friendly, modern and secure

Windows are the face of your house; their design reflects your personality and delivers your style to the outside world. Not only do they brighten your day and allow in light, they cater to your well being by protecting you from undesirable weather and undesirable intruders. User friendliness should never be compromised so our innovative hardware technology provides your family the key to security and modern living.

Deceuninck windows offer simplicity and delivers perfect harmony with both the architecture and the decoration of your house. Its warm and soft lines hint at the origins of a classical and modern style. Its tactile features achieve the aesthetic balance not only with its image, but also with the sense of strength it provides when you touch it.

Protection and Security

Your family is your world and protecting them is an instinctive part of our nature. The need for protection and security is part of our lives from a young age to adult hood.

Protecting our material possessions is also important and feeling safe and secure in our homes is as simple as choosing the right doors and windows. Deceuninck's high-security hardware and excellent frame strength gives you that peace of mind.

Door

Your new Deceuninck door is much more than a beautifully designed portal to the outside world. It's also unequalled in strength, security and fully guaranteed to perform as well in years to come as it does today.

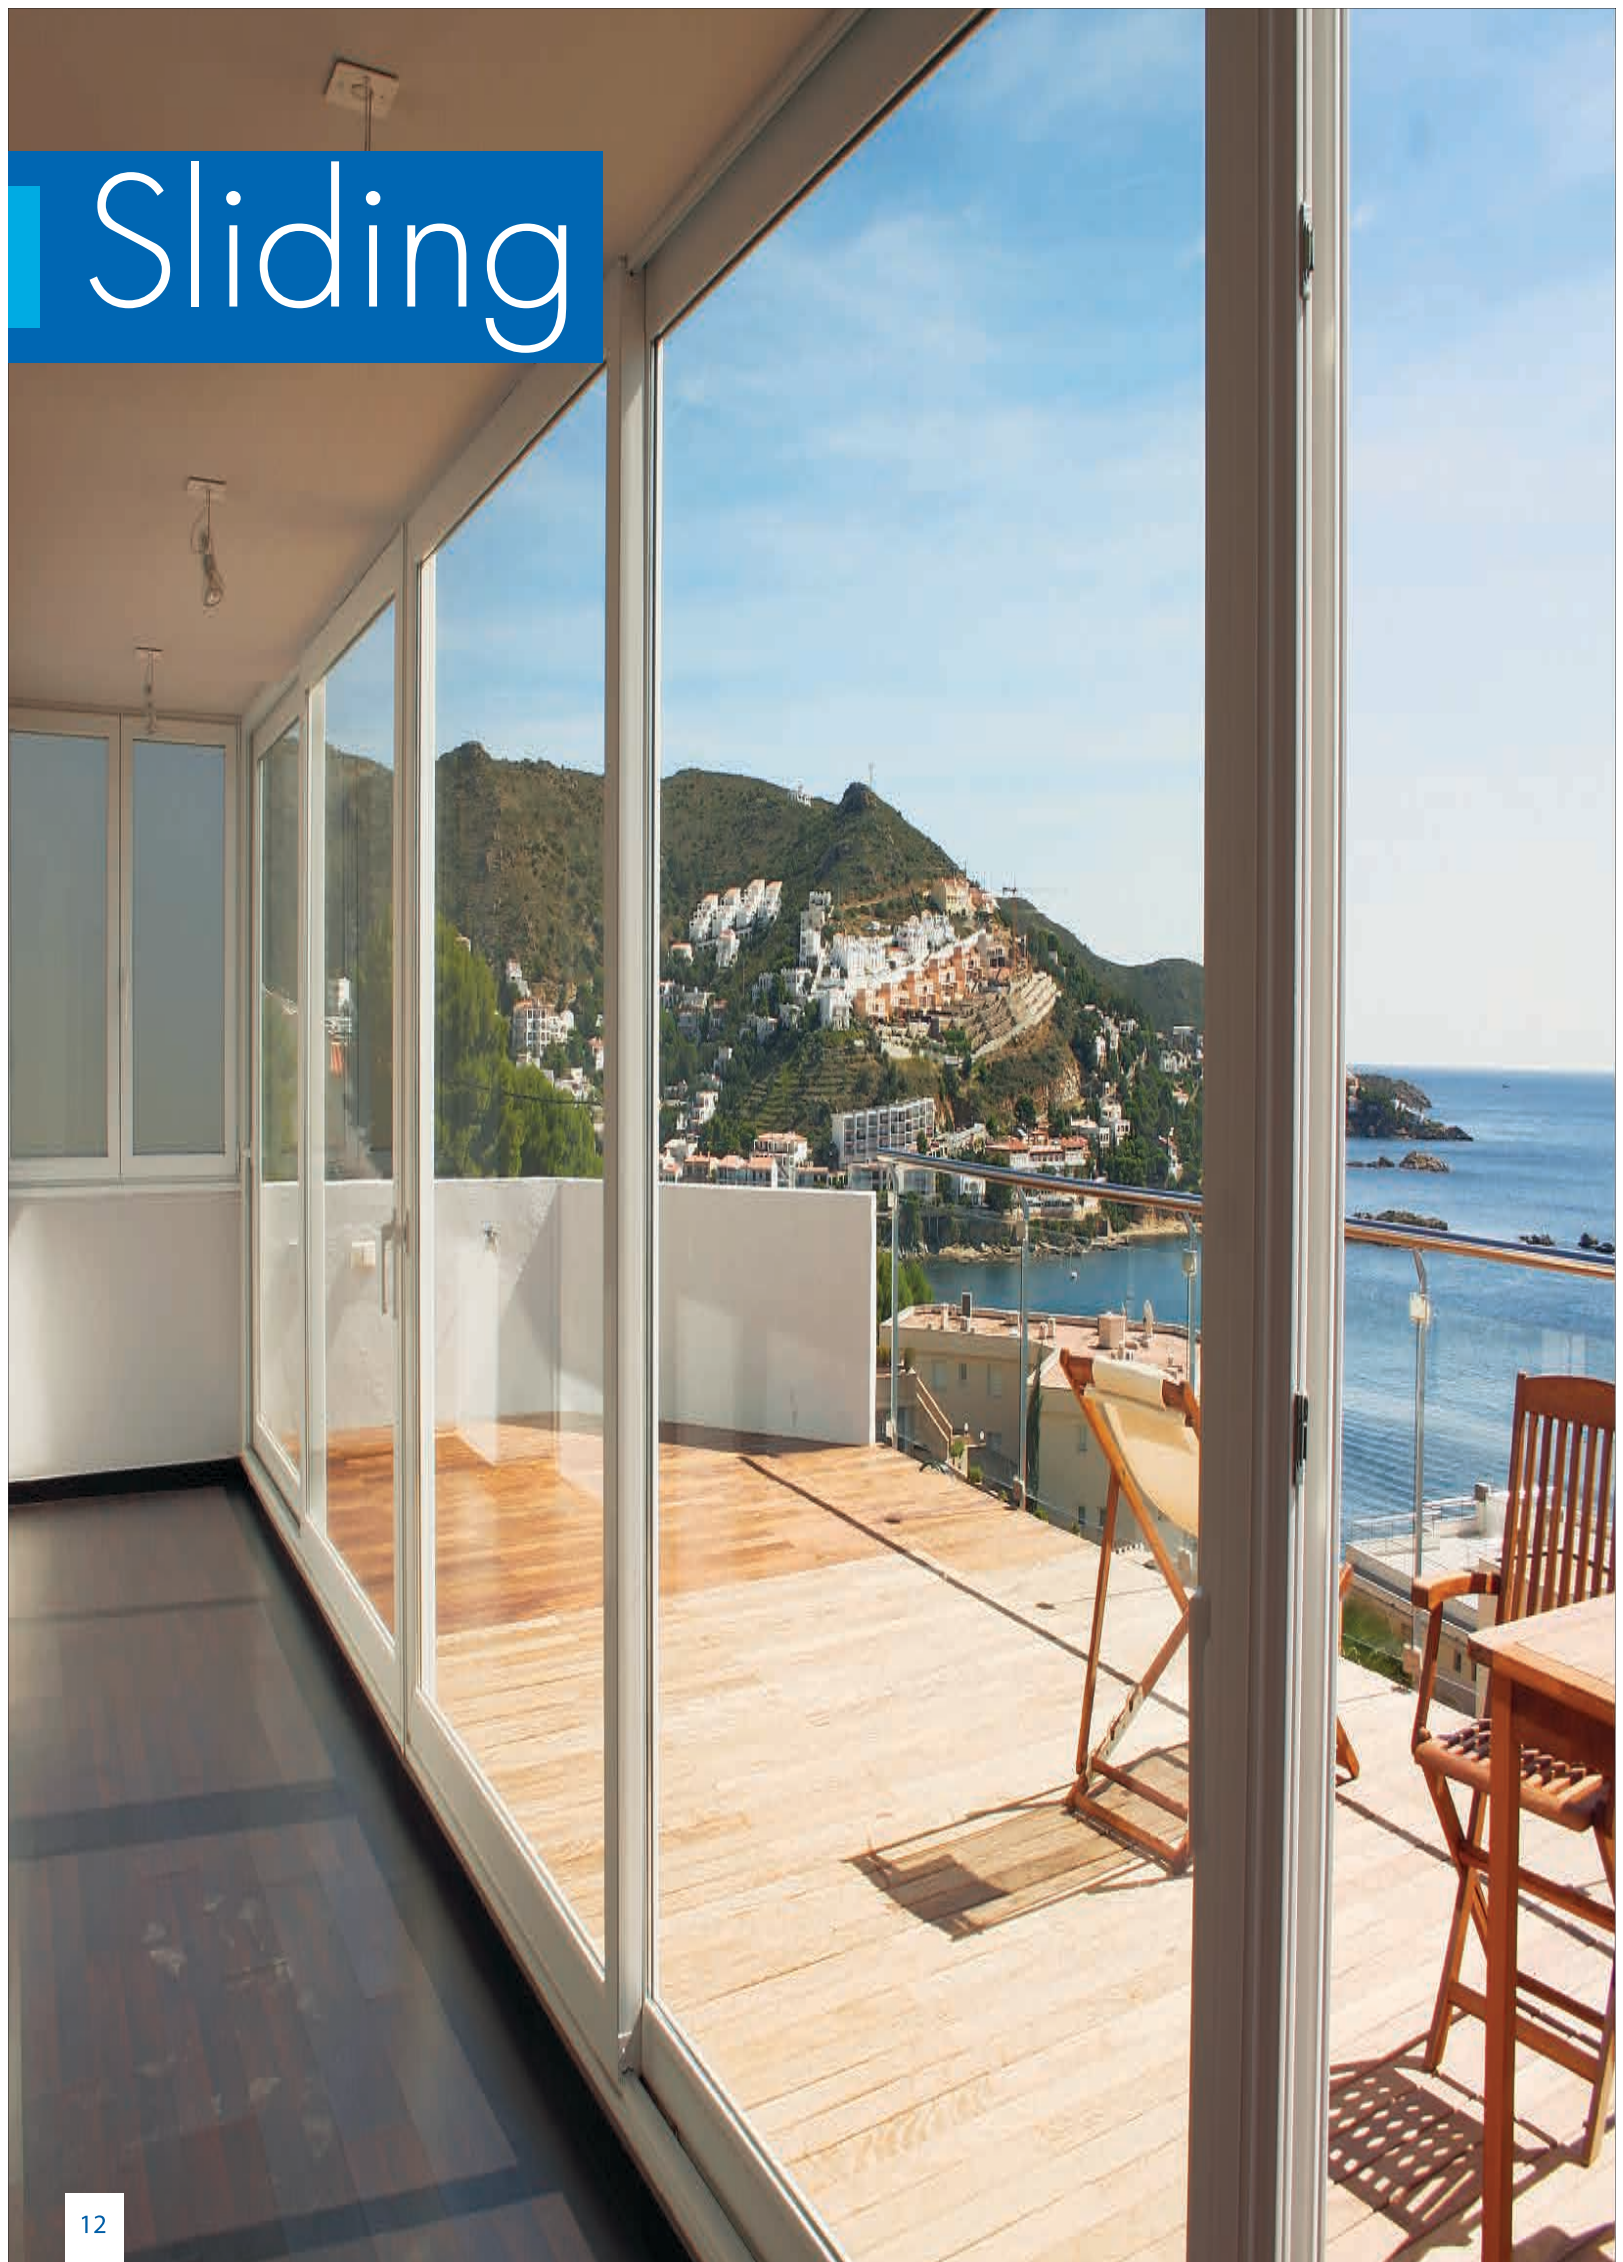

Security, Safety & Aesthetically Pleasing

- Solid and substantial hinges
- One - piece multi point locking system
- Effectively secured lock technology
- Security locking strikers
- Easy-to-use locking mechanisms with a key and/or lever operators
- Fully customizable design i.e. solid, glass or a mix of both
- Maximum air tightness

Sliding

Effortlessly smooth-sliding and beautiful, our impressive sliding doors create a vast amount of unimaginable space and an inviting contemporary character.

Complete freedom of movement

Have as much light, air and freedom of movement as you wish. Deceuninck sliding system open your rooms in a most elegant and efficient manner.

Doors can be pushed aside very easily, creating ample space to move through and entertain during those special family occasions.

- Opening width up to 6 m
- Up to 6 movable panels can be arranged in any desired combination
- Heavy duty ball-bearing roller provides smooth running and easy operation

Deceuninck Lift & Slide System expands interior spaces and easily opens them to the outside world. It quickly integrates your interior space with its terrace, balcony or garden in an elegant and practical way, leaving a spectacular living and entertaining area.

Deceuninck Lift & Slide System makes your spaces weather-proof, protecting you against the elements while forming a transparent wall with comfort and spaciousness. Providing elegance and an abundance of perceived space, its high-tech operating system enables you to move unusually wide doors easily, as if floating on air.

Bi - Fold

Seamlessly connecting outdoor and indoor spaces

These elegant, concertina doors add a real "wow" factor to any home or premises, and seamlessly connect our outdoor and indoor spaces. Once folded back, they create a large opening for easy access. Particularly suited for new-build projects, these designer folding doors are becoming increasingly popular as property developers seek to differentiate their homes. Home owners too are increasingly demanding more sophisticated products.

Deceuninck has carefully designed its bi-fold door system to offer smooth, simple functionality with a bottom or top rail concertina mechanism. The versatility of the Deceuninck bi-fold door means that you can use it to create a glass wall up to an impressive 6 meters wide. As you would expect from the world leader in door systems.
